

SAVE \$50

on a Consumers Energy

COOLING COMPREHENSIVE

TUNE-UP performed by a qualified participating contractor.

Don't get stuck with a cooling* breakdown this season. Schedule your Consumers Energy comprehensive tune-up now.

Many standard tune-ups don't detect potential issues that our comprehensive tune-ups can identify. Our qualified contractors use advanced diagnostic tools to fully analyze your system, identifying issues that rob your system of efficiency or present potential health and safety issues. Performing these deep diagnostics and checks takes more time and often costs a little more. That's why we are offering you a **\$50 rebate** to offset this difference.

*Cooling comprehensive tune-up eligible when performed between April 1 and September 30, 2018.

**SCHEDULE YOUR
COMPREHENSIVE TUNE-UP TODAY!**

BENEFITS OF OUR COMPREHENSIVE TUNE-UP PROGRAM

Our participating contractors who are qualified to perform this tune-up spend more time using advanced diagnostics to evaluate the capacity of your cooling system. This extra care helps identify system inefficiencies to better pinpoint steps to improve your system.

- **Get more from your tune-up.** Most standard tune-ups don't use advanced diagnostics to ensure your system is operating at peak efficiency. The contractor you select from our list of comprehensive tune-up participating contractors will assess your equipment and make the necessary adjustments to ensure your system is operating as efficiently as possible.
- **Invest in efficiency.** This extra care may cost a little bit more, but the \$50 rebate will offset the investment with this more advanced tune-up.
- **Have peace of mind.** A properly maintained air conditioner lasts longer, is more reliable and is safer for your family.
- **Stay cool.** A well-tuned-up air conditioner keeps you cool and comfortable during even the hottest summer days.
