

## HOME PERFORMANCE WITH ENERGY STAR® (HPWES) PROGRAM

### ATTIC FLATS R-30 SPRAY FOAM INSULATION ELIGIBLE FOR REBATES

Consumers Energy is pleased to announce a new roof (attic) insulation measure for customers who have R-30 spray foam insulation applied to either a roof deck or attic flat with a minimum of 500 square feet.

The current \$250 rebate for gas/combo customers and \$70 rebate for electric customers for sloped attic insulation will be changed to \$125 and \$35 respectively beginning **June 1, 2018**.

Projects completed on or after **June 1, 2018** will be eligible for \$125 rebate for gas/combo customers and \$35 rebate for electric customers. The \$250 and \$35 rebate amounts will be available until June 30, 2018 for projects sold prior to June 1, 2018.

Each attic insulation measure will count towards the multiple measure bonus. For example, a project that includes a 500 square feet sloped attic insulated to R-30 with spray foam AND a 500 square foot attic flat insulated to R-49 with cellulose - would count as two measures.

MEASURE DESCRIPTION	NATURAL GAS AND	NATURAL GAS ONLY	ELECTRIC ONLY
<b>Roof (Attic) Insulation</b> (R-30 or less existing condition, insulated to R-30 with foam for attic flats or slopes. Must insulate a minimum of 500 square feet).	\$125	\$125	\$35
