

CONSUMERS ENERGY AND DTE ENERGY FREE COMBUSTION EFFICIENCY SEMINARS FOR HVAC TECHNICIANS

In support of the Consumers Energy and DTE Energy Residential HVAC and Home Performance Programs, Consumers Energy and DTE Energy are hosting a series of upcoming combustion efficiency testing seminars. Field service technicians and service managers are invited to participate in a free seminar covering:

- Combustion basics
- Efficiency testing
- Metrics and standards
- Safety concerns
- Customer expectations
- Tune-Up Rebate Program documentation

The combustion efficiency training qualifies for North American Technical Institute (NATE) and Building Performance Institute (BPI) CEU's. Be sure to bring your NATE and BPI technician information to the seminar.

Register to attend one of the following seminars:
