

MADE IN MICHIGAN

SUPPORT MICHIGAN'S ECONOMY.
LOWER YOUR ENERGY USE.

The Made in Michigan program from Consumers Energy allows you to support the local Michigan economy by purchasing energy efficiency home improvement products that are **at least 50 percent manufactured in Michigan.**

- **Manufacturing employs roughly 575,000 people in Michigan.**
- **Every dollar spent on final sales of manufactured products supports \$1.34 in output from other economic sectors.***

Join fellow Michiganders in helping our state's economy and start saving energy and money now.

Maximize your savings on Insulation and Windows projects **with additional Made in Michigan rebates:**

- Roof (Attic) Insulation
- Above-Grade Wall Insulation

**Ask your participating contractor which
Made in Michigan products and equipment can be used for your next project.**

All Consumers Energy natural gas, electric and combination customers can participate in the Made in Michigan Program. To be eligible for the Made in Michigan incentives, customers must also participate in the Insulation and Windows Program with a participating contractor that offers eligible Made in Michigan products. Incentive amounts are valid until December 31, 2017. Funding is limited and available on a first-come, first-served basis.
